

COVID-19 Procedures

Drop-off & Pick-Up. Parents will remain in cars at all times. Children can't leave the vehicle until they pass the temperature check. Parents will wait until their child(ren) have passed the temperature test before leaving the premises in the morning. If there is an issue parents must make an appointment to speak with a director in person or via zoom conference, they must submit to a temperature check, wear a mask, and sanitize before entering director's office.

Late Arrival If a camper is late, parents must call 985-287-2475 and wait until an employee comes and takes your child's temperature and escorts them in.

Payments All payments must be made online at www.kidsonthemovela.org **no cash will be accepted.**

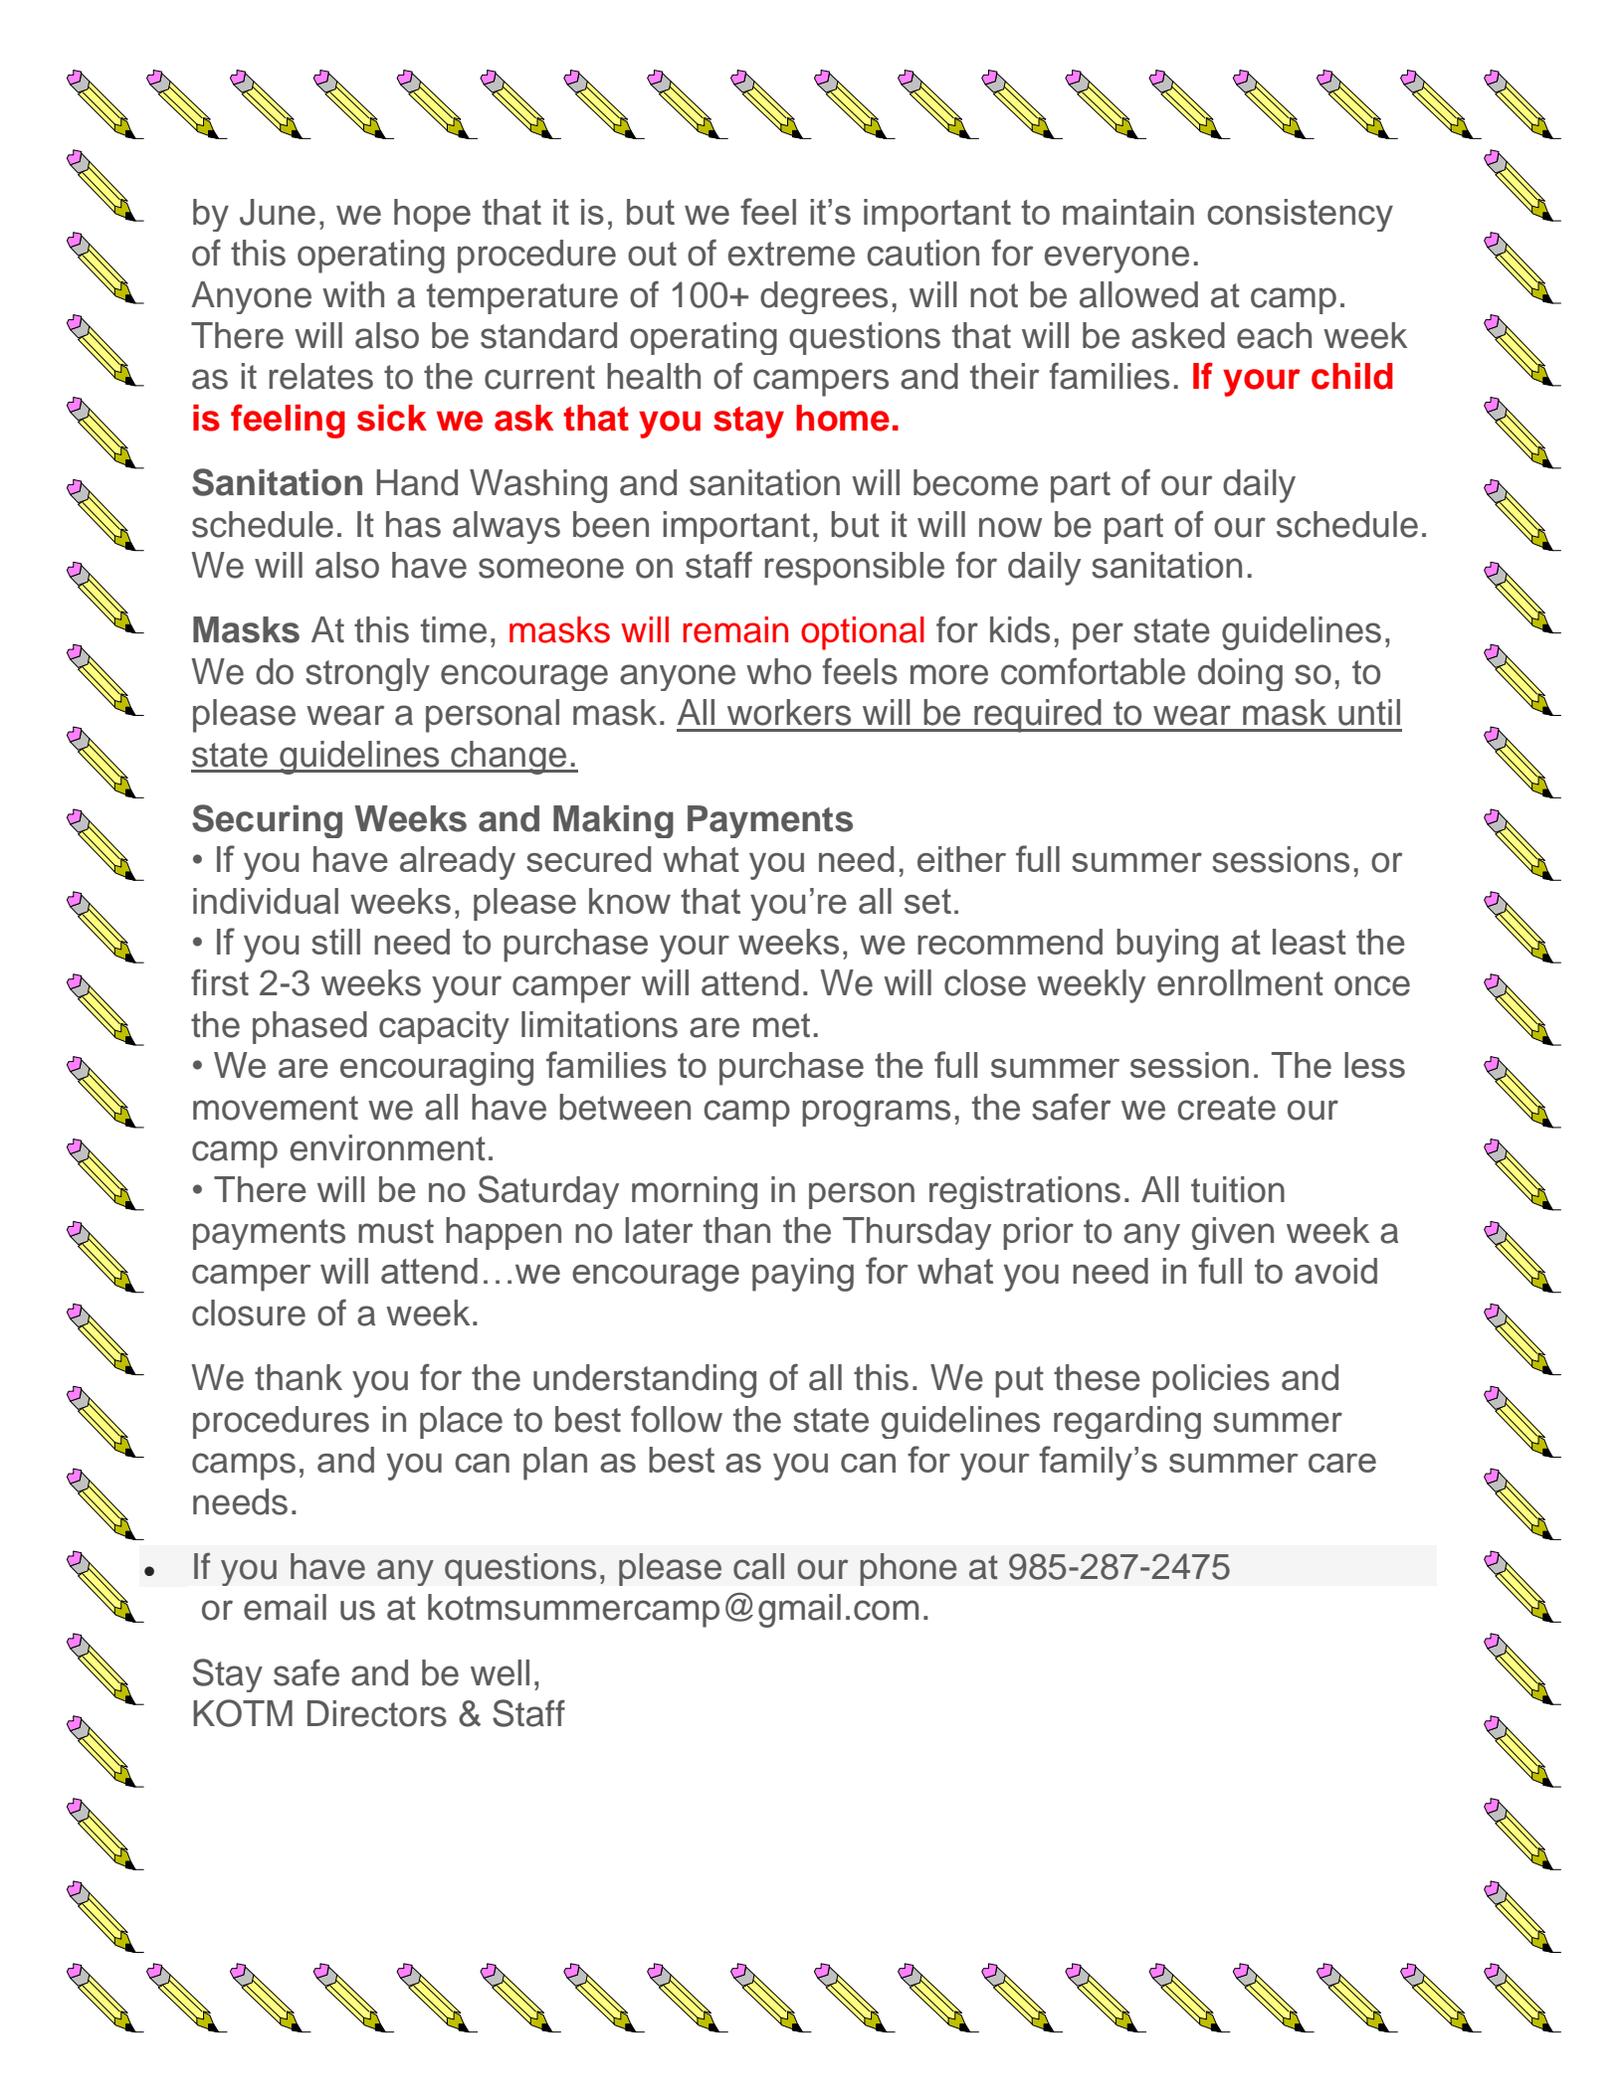

Amending Enrollment Enrollment will be limited in the early weeks to meet the 25% capacity restrictions in many locations. Groups will be limited to no more than 10 people in **Phase 1 per state guidelines** . Groups will move around together, eat lunch together and stay as a 'family' throughout the day. Group size may increase as the state goes through the phases.

Attendance Due COVID-19, we are requesting that Weeks be purchased in advance during at least Phase 1 when we are at 25% occupancy limitations. We reserve the right to close weeks at any time based once enrollment capacity is reached.

Consistent Faces The more consistent we are with the same campers and staff throughout the summer, the better our chances are to help limit the spread of any communicable disease at camp. You registration is confirmed for the weeks you have already purchased. If you know the weeks you need now, we ask you to please let us know so we can hold your space.

No Offsite Field Trips (at least in June:) The importance of keeping campers & staff as "close to home" as possible helps limit the exposure to things that are out of our control. We can manage the safety and sanitation of our camp worlds as best we can, but when we go outside of our environment, the increased risk multiplies. Given the extreme, cautionary measures we will still face going into summer, we will work to bring more exciting things to camp, and stay on site as much as possible. We are tentatively waiting on more information in regards to swimming.

Daily Temperature Checks Campers and staff will receive temperature checks coming into camp each morning. We know this sounds extreme, and

by June, we hope that it is, but we feel it's important to maintain consistency of this operating procedure out of extreme caution for everyone. Anyone with a temperature of 100+ degrees, will not be allowed at camp. There will also be standard operating questions that will be asked each week as it relates to the current health of campers and their families. **If your child is feeling sick we ask that you stay home.**

Sanitation Hand Washing and sanitation will become part of our daily schedule. It has always been important, but it will now be part of our schedule. We will also have someone on staff responsible for daily sanitation.

Masks At this time, **masks will remain optional** for kids, per state guidelines, We do strongly encourage anyone who feels more comfortable doing so, to please wear a personal mask. All workers will be required to wear mask until state guidelines change.

Securing Weeks and Making Payments

- If you have already secured what you need, either full summer sessions, or individual weeks, please know that you're all set.
- If you still need to purchase your weeks, we recommend buying at least the first 2-3 weeks your camper will attend. We will close weekly enrollment once the phased capacity limitations are met.
- We are encouraging families to purchase the full summer session. The less movement we all have between camp programs, the safer we create our camp environment.
- There will be no Saturday morning in person registrations. All tuition payments must happen no later than the Thursday prior to any given week a camper will attend...we encourage paying for what you need in full to avoid closure of a week.

We thank you for the understanding of all this. We put these policies and procedures in place to best follow the state guidelines regarding summer camps, and you can plan as best as you can for your family's summer care needs.

- If you have any questions, please call our phone at 985-287-2475 or email us at kotmsummercamp@gmail.com.

Stay safe and be well,
KOTM Directors & Staff
